

## DEPARTMENT OF HEALTH

DAVID Y. IGE  
GOVERNOR

ELIZABETH A. CHAR, MD  
DIRECTOR

**FOR IMMEDIATE RELEASE**

August 3, 2021

21-108

### **Partnerships Increase Availability of Free COVID-19 Testing for Hawaii Residents**

HONOLULU – The Hawai'i Department of Health (DOH) is increasing awareness of free COVID-19 testing sites available across the state.

“Testing is a key mitigation measure, especially as we continue to see widespread community transmission,” said Health Director Dr. Elizabeth Char. “We encourage individuals exhibiting COVID symptoms and individuals who have been exposed to an infected person—regardless of vaccination status—to get tested.”

Free COVID-19 testing is available through a number of federal, state, and county partnerships. Required documentation and appointments vary by site. Paid testing or testing with a doctor's order are available at additional locations statewide. For COVID-19 health information, visit [HawaiiCOVID19.com/health-information/](https://HawaiiCOVID19.com/health-information/).

Vaccination continues to be the best protection against COVID-19. Vaccines are widely available for individuals 12 and older. Find more information at [HawaiiCOVID19.com/vaccine](https://HawaiiCOVID19.com/vaccine).

#### **Federal Partnership**

Community-based testing sites are available through the U.S. Department of Health and Human Services at the following pharmacies:

- **CVS/Longs Drugs** – Locations on Hawai'i Island, Kaua'i, Maui, and O'ahu. [Click here for CVS/Longs Drugs information.](#)
